

Navigate Foreign Lands With Us

We engage at every level.
Go beyond borders

TAX | LEGAL | ADVISORY

www.level-international.com

ABOUT US

In a rapidly changing and complex global business world, you need a reliable guide to make the right decisions. As LEVEL INTERNATIONAL, we are the most strategic solution partner of domestic and foreign companies in their tax, compliance and legal processes.

Our goal is not just to provide consultancy services, but to enable our clients to navigate the complex regulatory ocean with confidence, minimize risks, and make a tangible contribution to their sustainable growth.

Our Roots and Experience: A Unique Perspective

The most important feature that makes us different is the versatile and deep experience of our team. The foundations of LEVEL INTERNATIONAL are built on years of accumulated experience in three critical areas:

- » **Origin of the Ministry of Treasury and Finance:** Discipline and in-depth knowledge from the making and auditing kitchen of legislation.
- » **International Audit Firms (Big 4) Experience:** Mastery of global methodologies, standards, and reporting discipline.
- » **Multinational Company Management:** The ability to sit on the other side of the table and understand the internal dynamics, business concerns, and needs of companies from the inside.

Through this unique tripartite perspective, we perfectly blend Turkey's dynamic local legislation with the expectations and standards of the global business world. By combining local know-how with a global vision, we produce tailor-made solutions that best suit you.

Our Business Philosophy: We Are Part of You

For us, consultancy is not about providing external reports. At LEVEL INTERNATIONAL, we see ourselves as a natural extension of our clients' organization, a part of your team.

Focused Expertise

We don't try to do everything. Focusing on tax, accounting, compliance and law, where we are most experienced, we offer the most in-depth and qualified service in these areas.

Result-Oriented and Innovative Approach

Instead of stereotyped, theoretical advice; we develop innovative strategies that are applicable, proactive and directly result-oriented in accordance with your business model. We aim to identify problems before you notice them.

Reliable Solution Partnership

We are with you for your sustainable success. We embrace your business processes as our own, and we sit on your side of the table in the difficulties you encounter.

OUR SERVICES

Our main service headings, which we have developed by focusing on the needs of our clients, are as follows:

Tax Consultancy

Tax is not just a cost calculated at the end of the year, but a strategic process that must be managed throughout the year. With our proactive approach, we minimize your tax risks while ensuring that you benefit from legal incentives and advantages at the maximum level.

Accounting & Compliance Services

Entrust your financial processes to us, and you can focus on your core business. With our infrastructure that uses technology effectively, we carry out your accounting and payroll processes error-free, on time and in accordance with the legislation.

Outsourcing And Payroll Services

Don't lose your way in the ever-changing world of regulation. By ensuring that your company fully complies with local and international legislation, we prevent potential criminal penalties and reputational damage.

Legal Consultancy

We do not consider the legal dimension of commercial life separately from the financial and tax dimensions. With an integrated perspective, we build your company's legal infrastructure on solid foundations.

TAX CONSULTANCY

At LEVEL INTERNATIONAL, our perspective on tax consultancy is clear: This is not just the fulfillment of a legal obligation (compliance). For us, tax management is a strategic area of creating a competitive advantage that directly impacts your company's profitability, cash flow, and future value.

In the business world, where legislation is changing at a dizzying speed and national and international competition is getting sharper day by day, a reactive approach is no longer sufficient. We offer a proactive and holistic consultancy solution to optimize your tax liabilities, control future risks today, and evaluate legal opportunities in a timely manner.

Our Areas of Expertise

Across different layers of the tax world, we offer in-depth expertise tailored to your needs:

Turkish Tax Consultancy

We empower you to navigate Turkey's dynamic and complex tax legislation with confidence.

- » **Optimization and Planning:** While managing your obligations regarding Corporate Tax, VAT and other indirect taxes without errors, we develop strategies to optimize your tax burden within legal limits.
- » **Incentives and Exceptions:** We proactively identify legal advantages specific to your business, such as investment incentives, R&D discounts, and export exceptions, and ensure that you benefit from them to the maximum.
- » **Up-to-Date Legislation Support:** We follow the ever-changing regulations and laws on your behalf, analyze their impact on your business and help you adapt quickly.

International Tax Consultancy

In your cross-border activities, we become your compass in the global tax maze.

- » **Cross-Border Structuring:** For Turkish companies expanding abroad or foreign companies investing in Turkey, we build the most efficient company and holding structures in the light of Double Taxation Agreements.
- » **Global Compliance:** We closely monitor developments in international tax regulations (BEPS, OECD rules, etc.) to align your global tax strategy with local requirements.

Transfer Pricing Consultancy

We secure transactions between group companies in a way that does not create tax risk.

- » **Policy Determination and Documentation:** We create the necessary policies for the execution of your related party transactions within the framework of the "arm's length principle" and prepare legally required annual Transfer Pricing Reports.
- » **Risk Analysis and Defense:** We protect your company against significant tax risks by establishing a defensible, consistent, and robust structure in potential tax audits.

ACCOUNTING & COMPLIANCE SERVICES

A robust financial infrastructure is the foundation of sustained success. At LEVEL INTERNATIONAL, we do not see accounting and compliance processes as just a legal obligation or “bookkeeping” that must be fulfilled. For us, this area is a critical data center that strengthens your business’s financial control, minimizes risks, and enables you to make strategic decisions for the future.

In the face of complex legislation and increasing demands for transparency, we combine our local expertise with international best practices. With our end-to-end solutions that ensure the accuracy, transparency, and full compliance of your financial records, we alleviate your operational burdens and open up a safe space for you to focus on your business.

Our Service Scope

We offer our services under two main headings, ranging from your daily operational needs to complex reporting requirements:

Accounting Services

We ensure that your financial data doesn’t just record the past but sheds light on the future.

- » **Legal Bookkeeping:** Keeping all accounting records in a timely, accurate and complete manner in accordance with the Turkish Tax Procedure Law (TPL) and the Uniform Chart of Accounts.
- » **Financial Reporting and Analysis:** We produce meaningful reports not only for legal obligations but also for managerial decisions.
- » **Accounting System Installation and Revision:** Consultancy to establish the most suitable accounting software and process infrastructure for your business structure or to increase the efficiency of existing systems.

Tax and Compliance Services

We become your operational shield so that you do not get lost in the complex corridors of legislation.

- » **Tax Return Management:** Preparation, control and accrual of all periodic declarations such as VAT, Withholding and Premium Service Declaration, Provisional Tax and Corporate Tax within the legal period, without errors.
- » **Payroll and SSI Services:** Personnel salary calculations, preparation of payrolls, SSI declarations and entry-exit procedures within the framework of the principle of confidentiality and in full compliance with the legislation.
- » **Secretarial Services:** Managing the registration and announcement processes before the Trade Registry such as company establishments, branch openings, address changes, general assembly meeting preparations, and monitoring the proper keeping of legal books (decision book, etc.).
- » **E-Transformation Processes:** Support in the transition and integration processes to digital tax applications such as E-Invoice, E-Archive, E-Ledger.

OUTSOURCING AND PAYROLL SERVICES

In today's highly competitive business world, the success of companies depends not only on their performance in their core business but also on how efficiently they manage their support functions. Critical but time-consuming processes such as finance, accounting, and human resources can consume internal resources, making strategic focus difficult.

Our goal with the Outsourcing and Payroll Services we offer as LEVEL INTERNATIONAL is clear: To reliably take on the operational and administrative burden on our clients' shoulders and to give them back the time they can devote to their strategic work.

With our service models that we structure tailor-made work specifically for each client; We offer a flexible and scalable structure that ensures cost-effectiveness, process transparency, and full compliance with both Turkish legislation and international standards.

Our Service Scope

We optimize the back-office processes of your business under two main headings with our expertise and technological infrastructure:

Outsourcing Services (Financial and Administrative Process Management)

Entrust us with your financial operations, channeling your resources towards growth.

- » **End-to-End Accounting Management:** Managing the entire accounting cycle, from keeping legal books to filing returns, outside the company, but as if it were a part of your company.
- » **Management Reporting and Financial Analysis:** Preparation of periodic management reports (cash flow, budget-actual comparisons, etc.) that will support your decision-making mechanisms, not only for legal obligations.
- » **Interim Management:** Providing short- or medium-term specialized personnel or executive support in case of specific projects, busy periods, or sudden personnel needs (maternity leave, departure, etc.).
- » **Invoice and Payment Process Management:** Tracking operational processes such as issuing sales invoices, controlling supplier invoices, and preparing payment lists.

Payroll Services

Expert assurance for a precise, confidential and error-free payroll process.

- » **Error-Free Payroll Calculation:** Error-free calculation of personnel salaries, premiums, overtime, deductions and all other fringe benefits in accordance with current legislation and production of payrolls.
- » **Legal Compliance and SSI Processes:** Preparation of SSI declarations, concise declarations; timely and complete management of all legal processes such as entry-exit procedures, reports and leave tracking.
- » **Privacy and Data Security:** Adhering to the principle of wage confidentiality at the highest level, securely processing and storing personnel data (KVKK compliance).
- » **Regulatory Consultancy:** Monitoring frequent changes in Labor Law and Social Security Legislation, analyzing their impact on the company, and providing proactive consultancy to HR departments.
- » **Personnel and Management Reporting:** Transmission of wage slips (digital or printed) for personnel and preparation of detailed labor cost reports for management.

LEGAL CONSULTANCY

In the complex business world, law is not just a solution to be applied when problems arise; it's a strategic tool that forms the basis of trading decisions and thwarts risks before they arise. At LEVEL INTERNATIONAL, our view of legal consultancy goes beyond classical legal services.

Our goal is not just to ensure our clients' compliance with the legislation; to produce strategic, preventive and practical solutions that support them in achieving their business goals and overlap with commercial realities. With our expert lawyers and legal consultants, we create a legal shield that provides 360-degree protection integrated with your tax and financial processes.

Our Service Scope

We gather the legal services we offer to our domestic and foreign clients under four main headings in accordance with the dynamics of commercial life:

Corporate and Commercial Law

We are with you at every stage from the birth of your company to its institutionalization.

- » **Corporate Law Consultancy:** Company establishments, amendments to the articles of association, capital increase/decrease, management of general assembly meetings and branch/liaison office openings.
- » **Corporate Governance and Compliance:** Board functioning, executive responsibilities, preparation of internal directives and compliance with corporate governance principles.
- » **Mergers and Acquisitions (M&A):** Legal due diligence, contract management, and closing procedures in mergers, acquisitions, share transfers, and spin-off transactions.

Foreigners and Citizenship Law

We facilitate the processes of global talents and investors in Turkey.

- » **Work and Residence Permits:** Management of the processes of obtaining work permits and residence permits of family members required for the employment of foreign personnel (expats) in Turkey.
- » **Citizenship Services:** End-to-end execution of real estate valuation, investment follow-up and application procedures in the processes of acquiring Turkish Citizenship in an exceptional way (through investment).
- » **Foreign Investments:** Legal consultancy for foreign capital companies regarding real estate acquisitions and direct investments in Turkey.

Contract and Legislation Consultancy

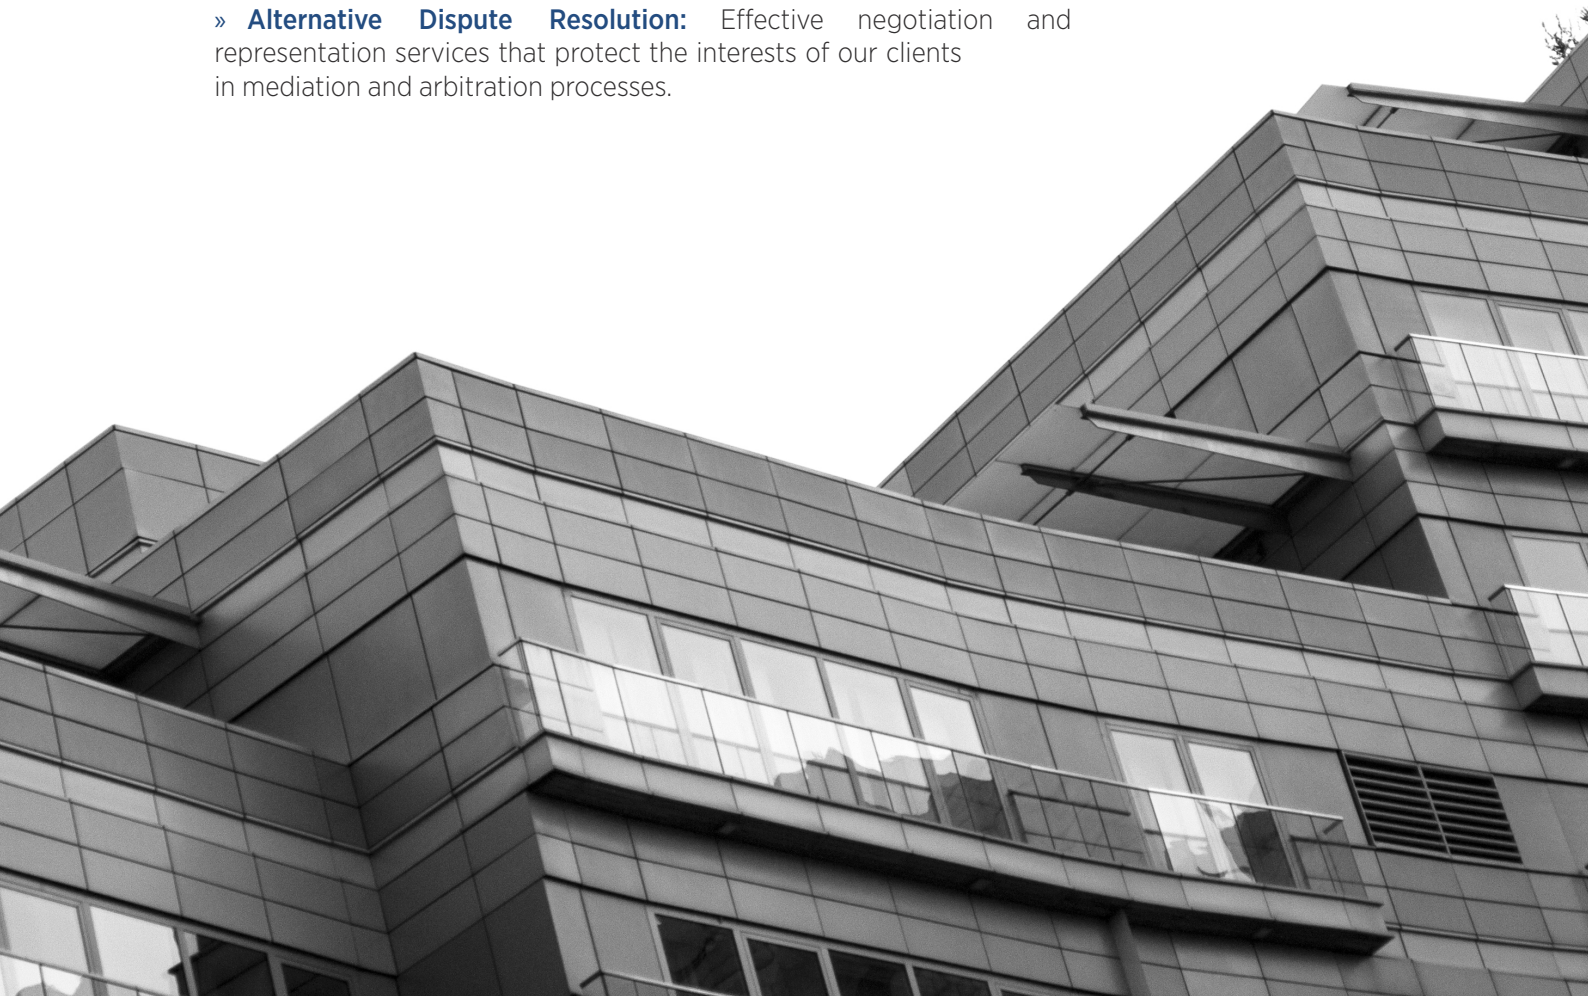

We put your commercial relations on solid foundations and minimize risks.

- » **Contract Management:** Preparation and review of commercial purchase and sale, dealership, distribution, confidentiality (NDA), service and business partnership agreements, risk analysis and client representation in negotiation processes.
- » **Regulatory Compliance:** Carrying out projects to comply with KVKK (Personal Data Protection), E-Commerce law and sectoral regulations.

Dispute Resolution and Litigation

We defend your rights in the most effective way and focus on the result.

- » **Commercial Litigation Proceedings:** Collection of trade receivables, conducting litigation and follow-up processes before the courts in disputes arising from breach of contract, unfair competition and corporate law.
- » **Labor Law Disputes:** Employer's representation and management of the process in cases arising from reinstatement, severance/notice pay and work accidents.
- » **Alternative Dispute Resolution:** Effective negotiation and representation services that protect the interests of our clients in mediation and arbitration processes.

OUR TEAM

RAMAZAN BİÇER

Partner,
Advanced LL.M. in
International Tax
Law

ramazan@level-international.com

Ramazan Biçer is a partner at LEVEL INTERNATIONAL, leading the firm's tax, accounting and legal services practice.

With over 11 years of experience at the Turkish Tax Authorities, Ramazan specialized in international tax and transfer pricing and served as an advisor to large taxpayers across various industries. During his tenure, he led national transfer pricing teams, contributed to the drafting of Turkish transfer pricing legislation, and represented Turkey at the OECD Working Party 6 on Transfer Pricing.

After leaving public service, Ramazan joined PricewaterhouseCoopers (PwC) in 2013, where he worked as a Senior Manager, managing a wide range of transfer pricing and international tax projects.

Today, Ramazan advises both domestic and foreign companies in the fields of international tax and transfer pricing.

His areas of expertise include the following areas:

- » International Tax
- » Transfer pricing (Policy design, documentation, Advance Pricing Agreements)
- » International company structuring and cross-border investments
- » BEPS and Pillar 2 applications
- » International wealth management and tax planning strategies

His articles have been published in many national and international publications and he is the author of the book "Transfer Pricing Implementation Guide".

Ramazan completed the Advanced LL.M. in International Tax Law Program at Leiden University in the Netherlands and received the title of "Advanced LL.M".

He holds Certified Public Accountant (CPA) and Public Internal Auditor licenses and is fluent in English.
